

POINT OF CARE COLLECT™ BY **DATARAY**

DataRay Point of Care Collect (DPOCC) empowers clinical workflow by providing the ability to instantly print collection labels by simply scanning the patient's wristband in ED, In-Patient, Out-Patient and ACS.

- Barcoded collection ID reduces potential for LAB errors
- **Saves Nurses Time!** Alleviates transporting & hand-writing labels for collections.

Simple To Use:

1. Nurse scans wristband on Patient
 2. DPOCC immediately prints order specific label in care room
- Barcoded specimens are now prepared for LAB to auto identify the exact order for accessioning*

* See Accession+ Flyer

- Compatible with virtually every EHR including VistA, RPMS, Epic, Meditech, and Cerner
